HEALTH INSURANCE

How Healthcare is Different in the United States

- The United States does **not** have universal healthcare.
- All medical services have a **cost**.
- The cost of services depends on the insurance you have.
- With insurance, you may still need to pay a **co-pay, co-insurance, or deductible** for medical appointments or services
- **What is a Co-Pay?**
 - A fixed amount (\$20, for example) you pay for a covered health care service.
- May need to see a general doctor before you can see a specialist

Be well. Feel well. Do well.

Health Insurance

- **It is University policy that all full-time students must have medical insurance coverage while at UConn**
- How much you pay for your plan can determine what is covered
- Generally, plans with lower monthly payment have higher deductibles. Plans with higher monthly payments usually have lower deductibles.
- Some low-cost plans do not cover preventative care like immunizations and physicals. They only cover you in an emergency.

Be well. Feel well. Do well.

Health Insurance

- Student Health Insurance Plan (SHIP)
 - Obtain an ID card through the “Wellfleet Cigna” Secure Member Portal Account
- Plan you buy yourself (i.e. Medicaid, Access Health, Exchange Plan)
 - Plan carried by a parent or spouse
 - Plan provided by an employer

Be well. Feel well. Do well.
